## OBJECTIVE

Hard working, organized individual with a formal background in both traditional and computational finance, looking to augment career opportunities by obtaining an advanced degree in mathematics.

## EDUCATION

### Georgia State University

06/17-12/18

- B.S. Mathematics, Magna Cum Laude
- Minor Computer Science
- GPA: 3.82

## EXPERIENCE

### Portfolio Strategist

01/15-05/17

#### WhiteTree Investment Management (Atlanta, GA & NY, NY)

- Worked directly with founder in developing a concentrated value strategy for separately managed accounts. Achieved significant alpha for all portfolios under custody.

### Financial Analyst

08/12-12/14

#### WhiteTree Investment Management (Atlanta, GA & NY, NY)

- Acted as principal analyst, specializing in a broad array of micro- and nano-cap firms, particularly those with over-the-counter securities available for possible investment opportunities.

### Client Representative & Business Development

01/10-07/12

#### Crandall Corporation (Columbia, SC)

- Primary responsibilities include overseeing account maintenance, onboarding new customers, and maintaining operational controls over cost of service delivery, minimizing potential margin leakage. Shifted to part-time on an as-needed basis Summer 2012.

### Academic Tutor

'07-'09

#### College of Charleston (Charleston, SC)

- Tutored a range of subjects from math to economics and finance on a weekly basis. Regularly handled high volume of incoming students in school tutor lab.

## SKILLS

- Well-qualified programmer with significant experience deploying commercial level scripts
- Working proficiency in Python, C, Java & JavaScript with project experience in Ruby, Lisp and x86 Assembly
- At home across all major operating systems (Linux/Unix, Windows & MacOS)
- Strong communication skills, from listening to building rapport
- Both team-oriented and effective decision maker
- Highly motivated problem solver by nature
- Flexible and adaptive to changing environment
